

INTERNAL RESEARCH SITE AND INTERNAL RESEARCH PURPOSES LICENSE AGREEMENT

DNASTAR, Inc.

This Internal Research Site and Internal Research Purposes License Agreement, including the Purchase Order, Quote, or eCommerce Terms, as applicable (each, an “**Order Form**”) which by this reference are incorporated herein (this “**Agreement**”), is a binding agreement between the person or organization (the “**Licensee**”) who purchased or otherwise legally obtained a license to use this version of a DNASTAR software application (the “**Licensed Software**”) and DNASTAR, Inc. (“**DNASTAR**”). You, on behalf of the Licensee, are agreeing to become bound by the terms of this Agreement, which includes a license to use the Licensed Software.

DNASTAR PROVIDES THE LICENSED SOFTWARE SOLELY ON THE TERMS AND CONDITIONS SET FORTH IN THIS AGREEMENT AND ON THE CONDITION THAT THE LICENSEE ACCEPTS AND COMPLIES WITH THEM. BY CLICKING "ACCEPT" YOU (A) ACCEPT THIS AGREEMENT AND AGREE THAT THE LICENSEE IS LEGALLY BOUND BY ITS TERMS AND (B) REPRESENT AND WARRANT THAT YOU HAVE THE RIGHT, POWER, AND AUTHORITY TO ENTER INTO THIS AGREEMENT ON BEHALF OF THE LICENSEE AND BIND THE LICENSEE TO ITS TERMS. IF THE LICENSEE DOES NOT AGREE TO THE TERMS OF THIS AGREEMENT, DNASTAR WILL NOT AND DOES NOT LICENSE THE SOFTWARE TO THE LICENSEE AND YOU MUST NOT DOWNLOAD AND/OR INSTALL THE LICENSED SOFTWARE OR DOCUMENTATION.

NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THIS AGREEMENT OR YOUR OR THE LICENSEE'S ACCEPTANCE OF THE TERMS AND CONDITIONS OF THIS AGREEMENT, NO LICENSE IS GRANTED (WHETHER EXPRESSLY, BY IMPLICATION, OR OTHERWISE) UNDER THIS AGREEMENT, AND THIS AGREEMENT EXPRESSLY EXCLUDES ANY RIGHT, CONCERNING ANY SOFTWARE THAT LICENSEE DID NOT ACQUIRE LAWFULLY OR THAT IS NOT A LEGITIMATE, AUTHORIZED COPY OF DNASTAR'S LICENSED SOFTWARE.

All use of the Licensed Software is subject to the terms of this Agreement.

- a. **Usage Logging.** This Section 2(a) serves as notice and Licensee’s acknowledgement that the Licensed Software includes DNASTAR’s Usage Logging Feature, which automatically sends to DNASTAR certain information regarding Licensee’s computer hardware, operating systems, and DNASTAR product usage including: the name and version of the DNASTAR software being used, the date and time that the application was launched and/or terminated, system information (version, architecture, available RAM), the DNASTAR subscriber number or other unique identifier, and the type of DNASTAR license in use (e.g., standalone, free trial, or network). DNASTAR reserves the right to use any obtained information to better understand and anticipate user needs and to improve its software to fulfill those needs. For more information about DNASTAR’s Usage Logging Feature, please refer to the Privacy Statement for DNASTAR’s Usage Logging Feature at <https://www.dnastar.com/privacy-policy/>.
- b. **Licensee Permissions.** Licensee may run the Licensed Software on either standalone computers or on networked computers, in accordance with the type of license acquired by the Licensee as indicated in the Order Form. A “**standalone computer**” is one that does not use a network to run or access the software protection system or any of the Licensed Software applications. A “**networked computer**” is one that uses a network to run and/or access the software protection system and/or one or more Licensed Software applications that are resident on another computer or a server of the network.

- c. ***Standalone Computer Customers.*** This Section 2(c) shall only apply to customers using the Licensed Software on standalone computers. This license permits the Licensee to run the Licensed Software only on standalone computers. The Licensee may not run the Licensed Software on a networked computer under this license. The maximum number of computers on which the Licensee may install the Licensed Software may not exceed the number of licenses purchased, or, for educational licenses or free trial version licenses, the number of licenses indicated in written notification from DNASTAR. Email is considered written notification for purposes of this paragraph.
- d. ***Networked Computer Users.*** This Section 2(d) shall only apply to customers using the Licensed Software on networked computers. This license permits the Licensee to run the Licensed Software over a network. The Licensee may not duplicate and run the Licensed Software on standalone computers or on any computer that is outside the control of the network licensing protection system provided with the Licensed Software or any other network licensing protection system explicitly allowed by DNASTAR. The maximum number of simultaneous users of the Licensed Software may not exceed the number of licenses purchased, or, for educational licenses or free trial licenses, the number of licenses indicated in written notification from DNASTAR. Email is considered written notification for purposes of this paragraph. The Licensee agrees to employ the network licensing protection system provided with the Licensed Software or another software protection system explicitly allowed by DNASTAR in writing to ensure that the number of concurrent users of the Licensed Software does not exceed the number of licenses purchased. Organizations that wish to allow remote users, defined as those not physically present at the location indicated on Licensee's Purchase Order, require a Global/Multisite Site License. Global Usage/ Multisite usage of standard network license is prohibited and requires a separate Global/Multisite access Site license.
- e. ***Subsequent Versions.*** If DNASTAR has released subsequent versions of the Licensed Software and has designated this version of the Licensed Software as unsupported, DNASTAR is under no obligation whatsoever to provide any support or service for this version of the Licensed Software, including, but not limited to, replacement of software access keys, database maintenance, or access to deprecated features, regardless of the type of license purchased by the Licensee. DNASTAR is not responsible for, and bears no liability for, loss or harm arising from any loss of access or function of unsupported versions of the Licensed Software.

3. Use Restrictions.

Licensee shall not, and shall require its users to not, directly or indirectly:

- a. Use the Licensed Software or Documentation beyond the scope of the license granted under Section 2.

- b. Modify, translate, adapt, or otherwise create derivative works or improvements, whether or not patentable, of the Licensed Software or Documentation or any part thereof.
- c. Remove, delete, alter, or obscure any trademarks or any copyright, patent, or other intellectual property or proprietary rights notices provided on or with the Licensed Software or Documentation, including any copies thereof.
- d. Use the Licensed Software or Documentation in violation of any law, regulation, or rule.
- e. Use the Licensed Software or Documentation for purposes of competitive analysis of the Licensed Software, the development of a competing software product or service, or any other purpose that is to DNASTAR's commercial disadvantage.

4. **Upgrades to Licensed Software.**

IF THE LICENSEE IS UPGRADING FROM ANY EARLIER VERSION OF THE LICENSED SOFTWARE TO THIS VERSION OF THE LICENSED SOFTWARE, THIS AGREEMENT SUPERCEDES ANY EARLIER AGREEMENTS OR LICENSES BETWEEN THE LICENSEE AND DNASTAR REGARDING ANY EARLIER VERSIONS OF THE LICENSED SOFTWARE THAT MAY HAVE BEEN PREVIOUSLY ACQUIRED FROM DNASTAR.

- a. ***Standalone Computer Customers.*** This Section 4(a) shall only apply to customers using the Licensed Software on standalone computers. If this license is being installed as an update or upgrade to previously owned licenses, then this Agreement terminates the license(s) for earlier versions of the Licensed Software that are being upgraded by this software. The Licensee agrees to uninstall each such earlier version of the Licensed Software from standalone computer(s) under the Licensee's control. For the avoidance of doubt, Licensee acknowledges that each installation of an update or upgrade to the Licensed Software requires uninstallation of the prior version of the Licensed Software to which the update or upgrade applies.
- b. ***Networked Computer Customers.*** This Section 4(b) shall only apply to customers using the Licensed Software on networked computers. If this license is being installed as an update or upgrade to previously owned licenses, then this Agreement terminates the number of licenses to earlier versions of the software possessed by the Licensee. The Licensee agrees to uninstall all copies of each such earlier version of the Licensed Software from all networked computers under the Licensee's control. The Licensee is allowed during the upgrade process to run current and previous versions of the software, with an understanding that DNASTAR may be unable to support the Licensee when using multiple versions of the Licensed Software. For the avoidance of doubt, Licensee acknowledges that each installation of an update or upgrade to the Licensed Software requires uninstallation of the prior version of the Licensed Software to which the update or upgrade applies. The Licensee may not run the Licensed Software and any previous version of the Licensed Software on the same network if such concurrent

use would exceed the number of uses granted by this Agreement and any associated Order Form Should Licensee run any version of the Licensed Software other than the most recent version, Licensee acknowledges that any such versions are unsupported, and the provisions of Section 2(e) will apply in full force and extent.

5. Licensee Representations.

- a. **Location and Control.** Licensee represents and warrants that all computers on which the Licensed Software is installed or used are under the Licensee's control and, unless otherwise permitted in writing by DNASTAR, are located at the organization and address indicated in the Order Form. The Licensee acknowledges that any installation and use of the Licensed Software elsewhere requires purchase of a separate, valid license agreement or permission provided by DNASTAR in writing or via electronic mail, as applicable.
- b. **Use of Licensed Software.** Licensee represents and warrants that the Licensed Software shall only be used for research purposes and shall not, in any manner whatsoever, be used to diagnose, treat, or care for humans or animals.
- c. **Non-Provision of Services.** The Licensee agrees to not provide any commercial or professional service using the Licensed Software or to provide any service in connection with any enterprise or activity conducted, in whole or in part, for a fee, profit, or reimbursement of costs in any way, except in conjunction with the internal research performed by the Licensee for its own internal purposes. If the Licensee desires to provide any services not permitted by this Section 5(c), the Licensee must purchase a separate, valid commercial services license of the Licensed Software applications purchased from DNASTAR. This restriction includes, but is not limited to, services provided to other divisions or personnel within the Licensee's organization.
- d. **Amazon Web Services.** Use of DNASTAR credentials to access Amazon Web Services (AWS) is limited by Amazon's customer agreement, which can be found at <http://aws.amazon.com/agreement/>. Licensee acknowledges that violation of any of Amazon's policies regarding use of AWS will terminate this Agreement. If your license is terminated, DNASTAR may, without notice, delete your data and terminate your access to AWS under DNASTAR credentials. Licensee is responsible for all activities that occur under Licensee's account, regardless of whether the activities are undertaken by Licensee, Licensee's employees, or a third party and, except to the extent caused by DNASTAR's breach of this Agreement, DNASTAR and its affiliates are not responsible for unauthorized access to Licensee's account. Licensee will contact DNASTAR immediately if Licensee believes an unauthorized third party may be using Licensee's account or if Licensee's account information is lost or stolen. Licensee's use of DNASTAR credentials to access Amazon Web Services will incur computer usage and related charges above and beyond the software licensing costs. Licensee agrees to be responsible for the computer usage and related charges incurred according to the rate structure in place for Licensee's

purchased license. Licensee agrees that DNASTAR may retain (but shall have no obligation to retain) Licensee's data for a period of ninety days after termination of the License. DNASTAR is not responsible and bears no liability for loss or harm arising from corruption or deletion of Licensee's data on AWS.

Licensee agrees to take full responsibility for the data transferred to AWS using Licensed Software. Licensee understands that access to AWS, including data storage, is being provided solely to support DNA, RNA and protein sequence assembly, alignment, structure prediction and analysis and Licensee agrees not to transfer data using Licensed Software that is not directly related to and in support of these activities. DNASTAR may, at its sole discretion, limit or terminate access to AWS to licensees with abnormally high data usage or excessive incurred costs. Licensee agrees to ensure that all data transferred to and stored on AWS is compliant with state and federal regulations and Licensee agrees to take full responsibility for obtaining any necessary regulatory or other approval to transfer or store data using Licensed Software. DNASTAR does not guarantee access to data stored using AWS. **Licensee accepts full and complete responsibility for backing up any and all data stored on AWS. DNASTAR assumes no responsibility whatsoever in connection with Licensee's upload or backing up of data stored on AWS.**

In the event your license expires, is not renewed, or is otherwise discontinued for any reason other than termination and some or all of your Licensed Software is accessed via AWS, DNASTAR will preserve your data for ninety days after expiration of your license. If you wish to recover your data during this period, DNASTAR may charge an additional fee. DNASTAR is not responsible and bears no liability for loss or harm arising from corruption or deletion of your data on AWS.

- e. ***Non-Publication.*** If the Licensed Software is licensed or otherwise used on any basis other than through a direct purchase from DNASTAR (including, but not limited to, educational licenses, free trial version licenses, and pirated copies of the Licensed Software), Licensee agrees not to publish in any journal or any other publication the findings, results, images, or other visualizations or views taken, either directly or indirectly, from the Licensed Software.
6. **User Privacy.** DNASTAR agrees to protect the privacy and confidentiality of Licensee's personal information and data. DNASTAR further agrees to not sell or give users' personal information to unaffiliated third parties.
 7. **Term and Termination.**
 - a. ***Term.*** This Agreement and the license granted hereunder shall remain in effect for the term set forth on the Order Form unless terminated as set forth under this Section 7 (the "**Term**").
 - b. ***Licensee Violations.*** DNASTAR retains the right to immediately terminate this Agreement if Licensee, in DNASTAR's sole determination, materially breaches this Agreement. Upon such termination, Licensee shall return all copies of the Licensed

Software, Documentation, and any other accompanying materials to DNASTAR and to uninstall and delete any and all installed copies of the Licensed Software from its devices.

- c. ***Effect of Termination.*** Upon expiration or termination of this Agreement for any reason whatsoever, the license granted hereunder shall also terminate, and Licensee shall cease using and destroy all copies of the Licensed Software and Documentation. No expiration or termination shall affect Licensee's obligation to pay all license fees that may have become due and payable before such expiration or termination or entitle Licensee to any refund of fees already paid.

8. Intellectual Property.

- a. ***Ownership.*** DNASTAR shall retain its entire right, title, and interest in and to the Intellectual Property Rights associated with the Licensed Software and Documentation.
- b. ***Grant of Rights.*** Licensee acknowledges and agrees that the Licensed Software and Documentation are provided under license, and not sold, to Licensee. Licensee does not acquire any Intellectual Property Rights, or any other rights whatsoever, in the Licensed Software or Documentation under this Agreement, other than to use the same in accordance with the license granted under Section 2 and subject to all terms, conditions, and restrictions under this Agreement.
- c. ***Licensee Responsibilities.*** Licensee shall use commercially reasonable efforts to safeguard all Licensed Software, and all copies thereof, from infringement, misappropriation, theft, misuse, or unauthorized access. Licensee shall promptly notify DNASTAR if Licensee becomes aware of any infringement of DNASTAR's Intellectual Property Rights in the Licensed Software and shall fully cooperate with DNASTAR in any legal action taken by DNASTAR to enforce its Intellectual Property Rights.
